TRASH COLLECTION UPDATE

December 14, 2022

In 2017, Waste Pro and the Town of Atoka entered a five-year contract with an optional five-year extension. Over the past couple years, there have been trash collection issues which the Town has attempted to resolve with Waste Pro. We are at the end of the initial five-year contract with Waste Pro which ends on December 31, 2022.

The Board of Mayor and Aldermen and staff are attentive to your trash collection concerns and frustrations. The Town understands that it has been very difficult at times and appreciates your patience.

The Town requested proposals from potential new trash collection contractors and has selected a new collection contractor.

Beginning January 3, 2023, Republic Services will be the new service provider for the Town of Atoka. Town staff is coordinating with our new provider on container distribution and other logistics details.

Watch your mailboxes for direct mail from Republic Services with your collection day.
